

The Association of Postconsumer Plastic Recyclers

Survey of Each State's Largest Municipality Residential Plastic Collection Programs - 2018 Overview

This survey is conducted via the internet by evaluating each state's largest municipality's recycling website information. Conducted to get a "sense" of how and what plastics are currently being collected, it is by no means a definitive source of information. Below is a brief overview of survey results. This information also includes Washington DC data, hence the data for 51 programs.
